b. No building, structure, premises or part thereof shall be constructed, erected, converted, enlarged, extended, reconstructed or relocated except in conformity with these regulations and for uses permitted by this ordinance.

2. ESTABLISHED SETBACKS

NEW BUILDING: In any block in which an existing yard depth and setback have been established (by existing legally established structures within the same COMMERCIAL DISTRICT) for more than twenty-five per cent (25%) of the frontage of the block (or a distance of two hundred (200) feet in each direction, whichever is the lesser), the required minimum yard depth and setback for any new building shall be the average of such established yards. Provided, however, that in no case shall such minimum required setback be less than ten (10) feet.

3. INTEGRATED CENTER

Land uses permitted in each of the COMMERCIAL DISTRICTS established by this ordinance may be grouped together in integrated centers in those DISTRICTS. Such groupings may be comprised of either:

a. a number of individual, non-related and separately operated uses in one building sharing common site facilities; or

b. one or more buildings containing non-related and separately operated uses occupying a common site, which utilize one or a combination of common site facilities, such as driveway entrances, driving lanes, parking areas, maintenance and similar common services; or

c. one or more buildings containing non-related and separately operated uses occupying individual sites, which are interconnected by the utilization of one or a combination of common facilities, such as driveway entrances, public or private street network, parking areas, maintenance and other services.
4. PERIMETER TREATMENT PLAN

A detailed perimeter treatment plan shall be submitted with a petition for commercial rezoning of any parcel which is proposed to be developed for multiple land uses and/or structures, or which is of such size as to afford this possibility. The perimeter treatment plan shall be filed in triplicate and to a scale not to exceed 100" = 1", and shall include all parts of the petitioned area within one hundred (100) feet of the project boundary unless a larger area is required by the Administrator of the Division of Planning and Zoning. The perimeter treatment plan shall include details of building locations, parking, signs, landscaping and screening where required for transitional yard purposes. Where the development will involve transitional yards and/or screening for residential use, the development standards of the applicable COMMERCIAL DISTRICT shall apply.
8. PERFORMANCE STANDARDS

SECTION 2.01 C-1 OFFICE BUFFER DISTRICT

PURPOSE OF C-1 DISTRICT:

The C-1 DISTRICT is designed to provide transitional areas where office functions, compatible office-use maintenance, and certain public and semi-public uses may be developed with the assurance that retail and other commercial uses with substantial commercialization will not invade or disrupt this type of use in the location as a buffer. These office and public and semi-public structures are typically small that supplemental to appearance and architecturally more harmonious with residential structures, this DISTRICT can serve as a buffer between residential areas and the more intense commercial uses.

This DISTRICT with its offices and other buffer-type functions also is designed for use along certain thoroughfares where a gradual transition from existing residential use should occur.

3. PERMITTED C-1 DISTRICT USES

The following uses shall be permitted in the C-1 DISTRICT. All uses in the C-1 DISTRICT shall conform to the general regulations and performance standards of section 2.00, the C-1 DISTRICT development standards of section 2.01, A and to any additional and/or more restrictive requirements specified in this section.

1. ANY OFFICE USE OR COMPLEX, including PROFESSIONAL, BUSINESS AND GOVERNMENTAL OFFICES, BANKS, SAVINGS AND LOAN OFFICES.

6. TEMPORARY STRUCTURES, including temporary signs, fences, walls, buildings, barricades and similar temporary structures incidental to the development of land during construction, to be included in the Improvement Location Permit for the primary use and to be removed concurrently with completion of construction of the primary use.

B. C-1 DISTRICT DEVELOPMENT STANDARDS

a. All uses and operations (except off-street parking and drive-in customer service windows) shall be conducted within completely enclosed buildings. On-site vehicular circulation and traffic patterns for all drive-in facilities
shall be subject to the approval of the Metropolitan Development Commission or the Administrator of the Division of Planning and Zoning of the Department of Metropolitan Development if so authorized by said Commission, prior to the issuance of an Improvement Location Permit.

Provided, however, the front yard use of such minimum required transitional front yard shall not include off-street parking if said abutting street is a Collector, Local or Marginal Access Street, Cul-de-Sac or Parkway. If the abutting street is an Expressway, Primary or Secondary Thoroughfare, the front yard may include off-street parking provided a fifteen (15) foot wide strip of said required front yard, paralleling and measured from the front lot line, and extending the full length thereof (except for walks, access cuts and driveways) shall be maintained as a landscaped portion of the yard in conformance with section 2.01, B, 7, b, (1).

A. PERMITTED C-2 DISTRICT USES

The following uses shall be permitted in the C-2 DISTRICT. All uses in the C-2 DISTRICT shall conform to the general regulations and performance standards of section 2.00, the C-2 DISTRICT development standards of section 2.02, B, and to any additional and/or more restrictive requirements specified in this section.

1. ANY USE PERMITTED IN THE C-1 DISTRICT.

2. B. C-2 DISTRICT DEVELOPMENT STANDARDS

1. USE:

   a. All uses and operations (except off-street loading and off-street parking) shall be conducted within completely enclosed buildings.

   b. No merchandise shall be produced, stored or handled on the premises for purposes of delivery or for sale at retail, wholesale or discount to the public or other businesses unless
incidental to the primary office function. Except, however, accessory use convenience retail sales and service establishments shall be permitted in office structures, multi-family residential structures or other C-2 DISTRICT permitted use structures, provided such establishments:

(1) Expressway: Eighty-five (85) feet
(2) Primary Thoroughfare of Parkway: Seventy (70) feet
(3) Secondary Thoroughfare: Seventy (70) feet
(4) Collector Street: Sixty (60) feet
(5) Local Street & Cul-de-Sac Fifty-five (55) feet

Provided however, in no event shall the required minimum front setback be located closer to the proposed right-of-way of any Expressway, Primary Thoroughfare or Secondary Thoroughfare (as designated on the Official Thoroughfare Plan of
b. No part of any structure shall be built closer to the right-of-way line of a Federal Interstate Highway route than ten (10) feet, except:

Front roads immediately paralleling Federal Interstate routes (with a coinciding right-of-way boundary) shall be considered collector streets, requiring a front setback of twenty-five (25) feet from the right-of-way of such front road unless such front road is designated otherwise on the Official Thoroughfare Plan of Marion County, Indiana, or on the recorded plat thereof as required by the Subdivision Control Ordinance of Marion County, Indiana.

In any case where the side or rear lot lines abut a street right-of-way line, there shall be provided a side or rear yard in which the setback of any structure shall comply with the MINIMUM FRONT SETBACK requirements of section 2.02, B, 2, unless subject to the ESTABLISHED SETBACK provisions of section 2.00, A, 2.

A side yard and setback of not less than eight (8) feet in depth shall be provided along each side lot line (unless subject to additional setback requirements of section 2.02 B, 8, for building or structural heights in excess of thirty-five (35) feet, or transitional yard requirements of section 2.02, B, 7).

If any portion of a side yard is used for a driveway or off-street parking area, there shall be provided and maintained along the entire length of such lot line, a three (3) foot landscaped strip, extending the full length thereof; provided, however, that where a dedicated alley separates a side yard from the adjacent property, the entire required side yard may be used for off-street parking and/or driveway.

A rear yard and setback of not less than ten (10) feet in depth shall be provided along the rear lot line (unless subject to additional setback requirements of section 2.02, B, 8, for building or structural heights in excess of thirty-five (35) feet, or transitional yards requirements of section 2.02, B, 7).

Said rear yard, whether abutting an adjacent property or separated therefrom by a dedicated alley, may be entirely used for off-street parking and/or driveway, unless subject to transitional yard requirements.
6. USE OF REQUIRED YARDS

All required yards shall be landscaped, in grass and shrubbery, trees and/or hedge, or in combination with other suitable ground cover materials, except:

a. Required front yards may include:

(1) Pedestrian walks, access cuts, driveways, flag poles and similar appurtenant uses.

(2) Off-street parking, provided however, a six (6) foot wide strip of the required front yard, paralleling and measured from the front lot line, and extending the full length thereof (except for walks, access cuts and driveways), shall be maintained as a landscaped portion of the front yard as required above, unless subject to the transitional yard requirements of section 2.02, B, 7.

and to a minimum height of thirty six (36) inches
for shrubbery and six (6) feet for trees at time of
planting, or comparable treatment.

(3) To provide maximum flexibility in the land-
scape design of said screen and ground area, a
variety of plant material may be used, provided
however, that a plan indicating the species,
variety, size, spacing and location of all plants
shall be filed with the Division of Planning and
Zoning of the Department of Metropolitan Development
and approved by the Metropolitan Development Commission

PURPOSE OF C-S DISTRICT:

The C-S SPECIAL COMMERCIAL DISTRICT is designed to permit, within a single DISTRICT, multi-
use structures or land use combinations of commercial and non-commercial uses, or single-use commercial projects, which due to excellence of planning, design or function, can be integrated, grouped or otherwise uniquely located with maximum cohesiveness, attractiveness and compatibility. Thus, the DISTRICT provides flexibility and procedural economy, by permitting the broadest range of land use choices within a single DISTRICT, with adequate land use controls. Under the C-S classification, particular regard can be given property with unique features or significance -- such as unusual topography or landscape amenities, historical, architectural or social significance, or other special land characteristics. The C-S DISTRICT can include high-rise or low-rise developments, can be applied to large or small land areas, appropriately located throughout the metropolitan area -- and can be useful in areas of urban renewal or redevelopment.

The C-S DISTRICT is intended to encourage greater creativity in land planning, superior site and structural design and development; to encourage an efficient, aesthetic and desirable use of open space; to provide for a use of land with high functional and aesthetic values; to assure compatibility of land uses, both within the C-S DISTRICT and with adjacent areas. It is intended to provide maximum flexibility in zoning districting and controls -- to meet the changing, diverse developmental needs of the metropolitan area.

The Commission may approve, amend or disapprove the plan and may impose any reasonable conditions upon its approval. If such plan submitted is a preliminary rather than final plan, the Commission's approval shall be conditioned upon the approval, by the Administrator of the Division of Planning and Zoning, of a final site and development plan, in total or in phases. Such final plan approval by the Administrator shall be conditioned upon the Administrator's finding that the final plan is consistent and in substantial conformity with the preliminary plan, as approved by the Metropolitan Development Commission.

In addition to said regulations of section 2.00 and 2.08, all land use within the C-S DISTRICTS shall be subject to any further standards, restrictions and/or requirements specified in such rezoning petition or ordinance, and to all requirements of section 1, 3 of Ordinance 71-A0-1, the IMPROVEMENT LOCATION PERMIT ORDINANCE of Marion County, Indiana, relative to plans (including exhibits, site plans, renderings, plans for buildings, signs or other structures, fencing, landscaping, off-street parking and loading areas, utilities, drainage, sewage or other developmental or land use plans) and
